

SYNERGY SPACERS

WHY USE SPACERS?

- Center panels during door assembly.
- Allows for natural expansion & contraction of center panel.
- Reduce panel rattle.
- Reduce cracking of glue joints.

Go Green Inserter

HOW ARE SPACERS USED?

- 8-10 Spacers are recommended per five piece door.
- Spacers sit snugly in groove.
NOTE: Panel should not compress more than half the diameter of the spacer
- Use the Unique "Go Green" Inserter shown - No air or electricity required.

WHAT MAKES SYNERGY SPACERS UNIQUE?

- **100% Green Product - NO** oil, no carbon black or Phthalates!
- Will not stain wood or leave spots on doors.
- New cutting edge TPC material provides compressibility & memory retention.

Synergy Spacers - The Natural Choice!
